Computer Science I Lab: 23021-001/2 (Spring 2010)
Craig Stewart (cstewart@cs.kent.edu)

Prerequisites
As with the lecture course, you need to have taken CS 10051 (Introduction to Computer Science) and earned at least a C. *Note that a grade of C- does not meet this requirement!* If you do not meet this requirement, you risk being deregistered from this course.

Websites
Class site: [http://www.cs.kent.edu/~jbaker/CS23021-Sp10](http://www.cs.kent.edu/~jbaker/CS23021-Sp10)

Office Hours
Tuesday and Thursday, 1 – 1:30 PM (or email me for an appointment), Room 255

Enrollment
The official registration deadline for this course is January 31, 2010. The last day to withdraw is April 4, 2010. University policy requires all students to be officially registered in each class they are attending. Students who are not officially registered for a course by published deadlines should not be attending classes and will not receive credit or a grade for the course. Each student must confirm enrollment by checking his/her class schedule (using Student Tools in FlashLine) prior to the deadline indicated. *Registration errors must be corrected prior to the deadline!*

Procedure
After a brief introduction to the lab material, students are required to complete the instructions for the lab as shown on the website. Be sure to submit your programs to subversion when completed. If you do not complete it in the allotted time, then you may finish it at home.

Grading
The total grade for all labs will make up 150 points of your total grade for the course. Each lab is worth 10 points, and lab attendance is required. You will receive a 2-point deduction for the week except for exceptional circumstances with written documentation provided. Programs are graded for correctness, documentation, and programming style. Points will be deducted (usually 1-2) for programs that show poor documentation or style. If you decide to finish your program at home, it is due four days after your lab (Saturday for the Tuesday lab and Monday for the Thursday lab). You will lose 3 points for turning it in beyond 4 days and 6 points for turning it in beyond a week after it was assigned. The grading scale is the same as the lecture course as is university policy. Please ask me, or your lecture instructor, if there are any questions regarding the grading scale or any graded labs.
**Disabilities**
University policy 3342-3-01.3 requires that students with disabilities be provided reasonable accommodations to ensure their equal access to course content. If you have a documented disability and require accommodations, please contact the instructor at the beginning of the semester to make arrangements for necessary classroom adjustments. Please note, you must first verify your eligibility for these through Student Accessability Services (contact 330-672-3391 or visit [www.kent.edu/sas](http://www.kent.edu/sas) for more information on registration procedures).

**Cheating and Plagiarism**
University policy 3342-3-01.8 deals with the problem of academic dishonesty, cheating, and plagiarism. None of these will be tolerated in this class. The sanctions provided in this policy will be used to deal with any violations. If you have any questions, please read the policy at [http://www.kent.edu/policyreg/chap3/3-01-8.cfm](http://www.kent.edu/policyreg/chap3/3-01-8.cfm) and/or ask.

"Cheat" means intentionally to misrepresent the source, nature, or other conditions of academic work so as to accrue undeserved credit, or to cooperate with someone else in such misrepresentation. "Plagiarize" means to take and present as one's own a material portion of the ideas or words of another or to present as one's own an idea or work derived from an existing source without full and proper credit to the source of the ideas, words, or works. If you are caught committing either act, you could potentially receive an “F” for the course and face possible further punishment from the university.

Final note: Syllabus is subject to change over the course of the semester.
