My homework assignments are intended to test your knowledge of some of the material presented in my lectures and in the textbook. On these homeworks, I expect clear, well-focused answers to the questions asked, answers that balance brevity and detail. While brevity is desirable, one-sentence “answers”, or lists of examples without further explanation, will probably not suffice. While detail and examples are desirable, two-page answers to each question are probably unnecessary. Furthermore, extensive unattributed “quoting” of sentences from the textbook is totally unacceptable — I expect you to answer the question in your own words to convince me that you understand the material.
