- Where Are We Headed?
Overview

What Is This Course About?

- Network architecture.
  - Principles and Concepts.
  - General-Purpose Computer Networks.
- Network protocols.
  - Internet Perspective.
  - LAN Perspective.
- Distinction between architecture and implementation.
What Is Not This Course About?

- Network building and usage.
  - We will not cover how to build/use Novell Netware.
- Survey of existing protocol standards.
- Specialized networks.
- This is the first course in networking, we can’t cover everything.
- Other courses.
  - CS 4/59995 Internet Engineering.
  - CS 6/75201 Interconnection Networks.
  - CS 6/75995 System Simulation.
Prerequisites

- CS 33001 Computer Organization.
- CS 33001 Data Structures.

Why You Should Not Take This Course

- You don’t have the necessary background (prerequisites).
- You are not ready for the hard work → 10-15 hrs/week.
  - Reading the book and references.
  - Doing the homework.
- You want to learn how to set up a network.
Text and References

- **References**:

Office Hours

- M 5:00–6:00 pm
- T-R 8:30–9:00 pm and by appointment
- peyrai@mcs.kent.edu
- http://mars.mcs.kent.edu/~peyrai

- 262 MSC,
- Phone 672-9062 (off-campus) 2-9062 (in-campus).
- Graduate teaching assistant will be announced soon.

Course Evaluation

- First Exam (50%) → June 28, 2001
- Final (50%) → July 14, 2001
Frequently Asked Questions

- Do I give make up tests?
  - No, a student can not skip a test unless (s)he has a justifiable excuse with proper documentation.

- Do I curve your grade?
  - Your grade depends on the performance of the rest of the class.

- Any other question?
Where Are We Headed?

We cover this course bottom-up.
